UVLS CLEARS

Acrylic – Aliphatic Urethane Clears compatible with all Createx paints for durable, non-yellowing protection in exterior and interior conditions.....3

REDUCERS, CLEANERS, CLEARS AND SPECIALTY PRODUCTS

Thinners, Cleaners and Specialty Products for Use with Createx paints..... 4-5

CREATEX AIRBRUSH COLORS

Airbrush paints made with lightfast pigments and a supple, acrylic resin for a soft-hand feel on fabrics.

- Transparent Colors 6-7
- Opaque Colors8
- Fluorescent Colors.....9
- Pearlized Colors..... 10-11

WICKED COLORS

Multi-surface airbrush paints made with lightfast pigments and a durable, acrylic resin suitable for any interior and exterior paint project.

- Transparent Colors 12-13
- Opaque Colors 13
- Fluorescent Colors..... 14
- Pearl & Metallic Colors 15-17
- Pearl-Flake Colors 17-18
- Detail Colors 19-20
- Flair Colors 21

ILLUSTRATION COLORS

Archival quality, acrylic airbrush paints made for superior detail and refined atomization.

- Transparent Colors 22-24
- Opaque Colors 24
- Bloodline 25
- Lifeline..... 26

candy₂O

Concentrated dyes. Mix with 4050 UVLS Gloss Clear to make 100% transparent candy colors. 26-29

AUTOBORNE SEALER

Acrylic sealer-primer for use as adhesive ground coat. Compatible with all Createx paints. 30-31

SCENIX MURAL & THEME PAINT

Durable and lightfast acrylic-urethane paint made for murals and theming paint projects 32-33

DRU BLAIR

Artist and Creator of Createx Illustration Colors. Learn more about Dru Blair and Realism at schoolofrealism.com.

4050 UVLS Gloss Clear

4051 UVLS Satin Clear

4052 UVLS Matte Clear

4053 UVLS High Gloss

UVLS CLEARS

UVLS Clears are an architectural & sign-grade clear for use with all Createx paints. The U-V-L-S stands for Ultra-Violet Light Stabilizer, meaning UVLS Clears offer underlying colors protection from direct light. Made with an acrylic – aliphatic urethane resin that is durable and non-yellowing.

UVLS Clears come in 4 gloss-levels: 4050 Gloss, 4051 Satin, 4052 Matte and new 4053 High-Gloss. Available in sizes 2oz., 4oz., 8oz., 16oz., 32oz. and 1-Gallon.

4053 High Gloss Clear offers improved gloss level and clarity compared to 4050 Gloss Clear. Apply 4053 High Gloss Clear over pearlescent, metallic and effect colors for deep, brilliant colors.

4050 Gloss Clear is a multi-functional clear that serves several functions: Inter-Coat Clear for graphic application and use as dry pearl & flake carrier. Adhesion promoter for making Createx paints stick to most any substrate including plastic, glass and metals. Carrier medium for candy₂o dye concentrates. Mixing clear for use with any Createx paint to make colors stick better, dry faster with improved leveling and durability after curing.

REDUCERS & ADDITIVES

All products are water-based. Refer to Technical & Safety Data Sheets for complete information. Createx Reducers, Cleaners, Mixing Clears and other Additives are generally compatible with all Createx paint brands. Refer to paint brand's Technical Data Sheet for specific information regarding how Reducers and Additives best work with that paint brand. For more, please visit the Createx Colors YouTube channel and creatextech.com.

4008 RESTORER

Biodegradable cleaner to remove dried, cured paint from an airbrush or spray-gun parts after painting. Use as a bath to soak metallic parts in. Not for use as a cleaner that is sprayed through airbrush or spray-gun. Rinse parts with water after cleaning with Restorer.

4011 REDUCER

Standard thinner for all Createx paints. Generally added 10% per volume for improved flow and drying.

4013 REDUCER

Thinner containing isopropyl alcohol that may be used as a substitute for 4011 Reducer. Compliant with clean air regulations including South Coast AQMD Rule 1401.

4014 THINNER

New deionized water treated with a biocide for thinning Createx paints in high heat, low humidity environments. Using 4014 Thinner in environments over 50% relative humidity is not recommended as it can severely prolong drying times.

4020 REDUCER

Specialty thinner containing acetone to assist drying in humid conditions. Best used by mixing in even parts with 4011 Reducer.

4030 BALANCING CLEAR

Urethane clear for mixing with Createx paints to create an acrylic – urethane resin mix which has improved flow, adhesion, and durability when painting hard-surface, non-porous substrates over hard-surfaces. Generally added 10% per volume to colors.

4050 UVLS GLOSS CLEAR

Acrylic – Aliphatic Urethane clear used as an adhesion promoter, carrier-medium for candy2o colors and mixing clear for use with Createx paints for improved flow, adhesion, and durability when painting hard-surface, non-porous substrates. Dries semi-gloss. May be polished to a gloss finish.

5601, 5090 & 4004 TRANSPARENT BASES

Acrylic, transparent resin bases used to extend colors for increased transparency without lessening resin volume which could result in a loss of adhesion compared to extending colors with 4011 Reducer. 5601 is the resin base for Createx Airbrush Colors, 5090 for Illustration Colors and 4004 for Wicked Colors.

5092 LATEX ADHESION PROMOTER

A specialty acrylic adhesion promoter for making paint stick to flexible latex. Developed by special FX artist Tim Gore.

5607 RETARDER

Additive for reducing tip-dry in arid environments. Add sparingly, in single drops, to paint thinned with 4011 Reducer. Avoid overuse as atomization, curing and adhesion may be affected.

5618 AIRBRUSH CLEANER

Cleaner used to rinse airbrush of color while painting before adding next color.

7040 ADHESION PROMOTER

A specialty acrylic-urethane adhesion promoter for making paint stick to rubber.

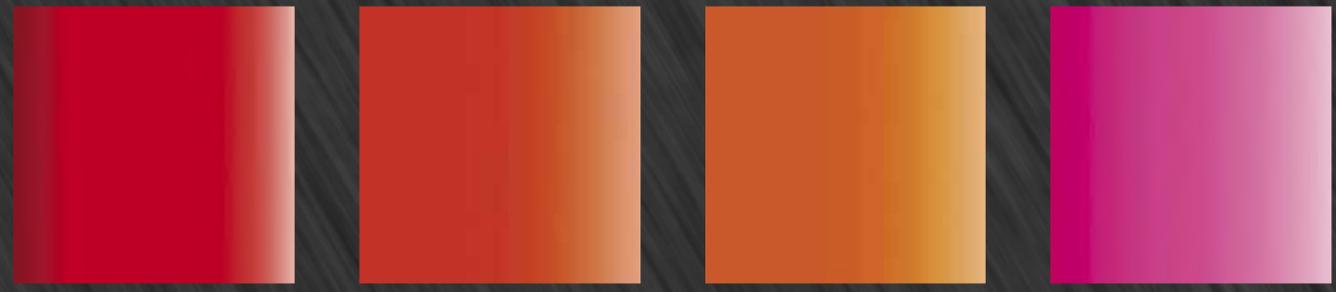

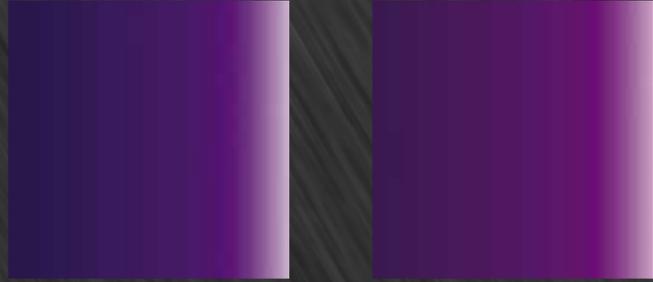

Water-based airbrush paint for anything airbrush. Made with lightfast pigments and a durable, supple acrylic resin for a soft-hand feel on fabric. Available in sizes 2oz., 4oz., 8oz. 16oz., 32oz. and 1-Gallon.

TRANSPARENT COLORS

Translucent graphic colors made with a high pigment load for coverage when sprayed out-of-the-bottle. Thin with 4011 Reducer for increased transparency and atomization when spraying with small airbrush tip-sizes.

Pearlized Colors

If you're looking for one paint that does it all, that's Wicked Colors, Createx's multi-surface paint that works excellent for anything airbrush. Wicked Colors are water-based acrylic colors and feature Createx's largest assortment of metallics & pearls, effect colors and a complete palette of artists colors. Refer to the Wicked Colors technical data sheet for mix ratios and application & product information.

WICKED TRANSPARENT COLORS

Standard-graphic, translucent colors. Suitable for use with any airbrush type or tip-size. Spray out-of-the-bottle for use with large tip-sizes, thin as needed with 4011 Reducer for smaller tip-sizes. Available sizes for Wicked Transparent Colors: 2oz., 16oz., 32oz. and 1-Gallon.

WICKED OPAQUE COLORS

Graphic colors that cover opaque. Features a unique acrylic – aliphatic urethane resin that is very durable and adheres excellent to most substrates including plastics. May be sprayed direct from the bottle through larger tip-sizes and thinned with 4011 Reducer for use with smaller tip-sizes. Available sizes for Wicked Opaque Colors: 2oz., 4oz., 16oz., 32oz. and 1-Gallon.

WICKED FLUORESCENT COLORS

Neon, graphic colors that fluoresce, i.e. emit a light that appears to glow in direct light. Fluorescent colors are not lightfast. And are very translucent. *Can be sprayed out-of-the-bottle though larger and medium tip-sizes and thinned with 4011 Reducer for use with smaller tip-sizes.* For exterior application, apply over a color-keyed base or AutoBorne Sealer color to hide eventual loss of fluorescent color. Available sizes for Wicked Fluorescent Colors: 2oz., 16oz., 32oz. and 1-Gallon.

CREATEX ILLUSTRATION COLORS
for Creating Your Art

CreateX's flagship line of airbrush colors designed for superior atomization through the smallest of tip-sizes sprayed at reduced pressures without leaving a grainy, stippled pattern. Illustration Colors are archival quality, made with lightfast pigments and a non-yellowing acrylic resin that is durable and acid-free.

TRANSPARENT COLORS

Transparent colors that spray out-of-the-bottle through a 0.3mm tip-size or larger. Thin with 4011 Reducer for increased flow, atomization and use with smaller tip-sizes.
Available sizes for Illustration Colors – 1oz., 2oz., and 8oz.
